

CODE :

```
import random
import time
try:
    while(True):
        hum=random.randrange(200)
        time.sleep(random.randrange(2))
        print(hum)
        if(hum<130):
            pass
        else:
            print("Temperature is high",hum)
            break
except:
    pass
```
